As a teacher, I want to be able to easily track and report on student participation in class discussions and group activities, so that I can assess their engagement and understanding. Acceptance Criteria: The system should allow teachers to create discussion forums and group activities easily. The system should track the number of times each student participates in discussions and group activities. The system should generate reports on student participation in discussions and group activities, including the number of times they participated and the quality of their contributions. The system should allow teachers to provide feedback on student participation in discussions and group activities, including areas for improvement and strengths.
